

# Shelby Williams®

## MELTING DOWN THE FACTS ON SUSTAINABILITY

Shelby Williams produces table bases that are 99% consumer waste.

We use recycled cast iron engine parts.

Our bases are 100% recyclable.

## HOW MUCH DO WE RECYCLE?

=

Each Ton that we recycle is equal to about 100 table bases

100 TABLE BASES

Over the last 50 years, we recycled more than 175,000 tons of car parts

THAT'S EQUAL TO

125,000  
AUTOMOBILES

## HOW ARE WE DIFFERENT?

### ✓ Materials

Most foundries use virgin iron ore mined from the earth.

*Shelby Williams uses 99% recycled iron.*

### ✓ Process

Most foundries use a blast furnace and smoke stack, which emit significant air pollutants.

*Shelby Williams uses an electric induction furnace that emits minimal air pollutants.*

### ✓ Certification

Most foundries have no clean industry certification.

*Shelby Williams earned the Certificate of Clean Industry for 12 consecutive years.*

*Shelby Williams makes the most environmentally responsible bases in the industry.*
