table bases

BASE CONFIGURATIONS

If no symbols are indicated, all base sizes are the same shape (square or round).

recycled cast iron bases

Our bases are made from 99% post consumer waste, mostly from recycled automotive engine parts. They are 100% recyclable.

FOOTRINGS

Footrings provide a comfort option for stand up height tables. Available on select styles.

Helpful Hint

Bases are standard with molded plastic or rubber cushion glides, depending on the style. We also offer optional Super Leveler, spring loaded, self adjusting glides. Bases are drilled and tapped, which is the most durable way to attach a glide.
