

# Shelby Williams®

A long, tufted blue booth with three small round tables and three pendant lights. The booth is made of a dark blue fabric with a diamond-shaped tufting pattern. The tables are small, round, and have a dark green top with a silver metal base. The pendant lights are simple, round, and have a clear glass globe with a visible filament. The background is a plain, light-colored wall.

Booths turn a simple space  
into a spectacular space,  
and can be used anywhere –  
lobby, lounge, or dining.

# How to Build a Custom Booth

Booths can be designed and configured to fit each unique space and application.

End panels and top caps may be wood, laminate, or upholstery

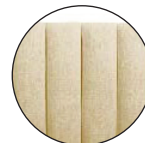

Wipeout channels make booths easy to clean

## Inside Back Options

Plain Roll Border

Deep Vertical Channel Tufts

Deep Diamond Tufting

Create infinite design options by specifying upholstery, laminate and veneer.

USB or 15 amp power options allow users to work, unwind, or recharge while in the space.

Design your booth from a variety of leg/base options. Wood or metal legs allow cleaning under the booth. Bases enclose the space.

Booths divide space to create multiple zones, each with a specific purpose.

Philly - PH

Wall benches offer flexible seating capacity and can be specified to any length.

# Why Booths

Booths provide privacy and allow social interaction.

## People Prefer Booths

- Comfortable and safe
- Private and quiet
- Flexible space to work, relax, or chat with friends

## Counter and Bar Height

- Varying heights create visual interest
- Provides people standing and sitting with common eye level for communication
- Easy access
- On trend, people prefer higher seats

## Booth Benefits

- Maximize use of space
- People stay longer and spend more in booths
- Cost effective
- Low maintenance
